The 2019 Jaguar I-PACE EV400 First Edition is a groundbreaking all-electric luxury SUV that combines Italian-inspired design with exhilarating performance. This particular "First Edition" model, finished in striking Photon Red with a Light Oyster and Ebony leather interior, represents the highly exclusive launch specification of Jaguar's first-ever EV. With 54,098 miles, it remains a standout choice for those seeking a sustainable vehicle that doesn't compromise on prestige or driving dynamics. Performance Powered by two permanent magnet synchronous electric motors integrated with the front and rear axles, the I-PACE delivers a combined 394 horsepower and a massive 512 lb-ft of instant torque. This dual-motor setup provides standard all-wheel drive, propelling the SUV from 0-60 mph in just 4.5 seconds. The 90 kWh battery pack is positioned low in the chassis to provide a near-perfect 50/50 weight distribution, while the First Edition's standard Active Air Suspension and Adaptive Dynamics ensure a sharp, car-like handling experience. Design The First Edition is distinguished by its unique Photon Red paint and high-gloss Charcoal Ash wood veneers. Its "cab-forward" design features a dramatic sloping roofline and a signature hood scoop that optimizes airflow, giving it a drag coefficient of just 0.29. This model sits on 20-inch Technical Grey wheels with a Carbon Fiber insert finish. Inside, the Light Oyster Windsor leather sport seats and Alcantara headliner create a bright, ultra-premium environment that feels more like a modern lounge than a traditional cockpit. Technology Equipped with the Touch Pro Duo infotainment system, the I-PACE features dual high-definition touchscreens for navigation and cabin controls. The First Edition includes a full-color Head-Up Display and a 12.3-inch Interactive Driver Display. It also boasts the premium 825-watt Meridian Surround Sound System. Being a forward-looking EV, it supports over-the-air software updates and features EV-specific navigation that identifies charging stations along your route to optimize travel time. Advanced Safety Features Safety is comprehensive, featuring a 360-degree Surround Camera system and the Driver Assist Pack as standard. This includes Adaptive Cruise Control with Steering Assist, High-Speed Emergency Braking, and Blind Spot Assist. The vehicle also utilizes acoustic signaling to alert pedestrians of its presence at low speeds, alongside Park Assist and Rear Traffic Monitor to navigate tight urban spaces with ease. Convenience and Comfort The First Edition offers peak interior luxury with 18-way heated and cooled memory front seats and heated rear seats. The cabin stays comfortable via a Four-zone Climate Control system and an ionizing air purification system. Drivers benefit from a heated steering wheel and a gesture-controlled powered tailgate, while the flat interior floor—a benefit of the EV architecture—provides exceptional legroom and a spacious 25.3 cubic-foot cargo area. Here at Jaguar Land Rover Schaumburg, we appreciate the opportunity to earn your business. This begins by being 100% committed to putting our customers first and offering complete transparency with every transaction. Please call us at (847)-252-7800 and ask to speak with one

of our Sales Guides and we will be happy to provide you with any additional information you need to make your decision. We look forward to serving you and welcoming you to the Jaguar Land Rover Schaumburg family.
